

**The company BLUE SHARK POWER SYSTEM announces
a postponement of the communication of its financial results
of a few weeks.**

The company Blue Shark Power System, listed on Euronext access, announces that the disclosure of its financial results 2018, originally announced for the April 18, 2019, will be shifted by a few weeks, for independent reasons of his will.

The results will be published on the Company's website on the 18th May 2019 at the latest.

About BLUE SHARK POWER SYSTEM:

Based in New Aquitaine, Blue Shark Power System designs and assembles tidal turbines with patented technological breaks.

The company offers two models, Blue Shark River for shallow waters, and Blue Shark Marine for seas and oceans.

Its tidal turbines can produce up to 1000 kW /hour of electricity for greatly reduced installation and maintenance costs.

Blue Shark Power System intends to deploy its equipment in partnership with energy operators around the world.
